This fixture contains masked identifiers and fictional names. It is safe for a product demo, but it must not be used to make a real dispute, lending, or identity decision.

Current account records

These entries are intentionally detailed so the import flow has enough report text to extract and the review card has a clear Harbor change to show.

Account-level source fields

Payment history	First National Bank Card: 30-day late in January 2026; prior months paid as agreed.
Responsibility	First National Bank Card changed from Individual to Joint between the prior and current snapshots.
Balances	All balances are fictional and intentionally consistent with the report snapshot totals used in the demo.
Masked identifiers	Only last four digits are present; no SSN, full account number, or real contact information is included.

Recent changes since December 10, 2025

Mosaic compares the prior and current snapshots, then asks the user to recognize, not recognize, or defer each change.

Change	Prior snapshot	Current snapshot	Review cue
Balance increase · account 4421	\$1,200	\$8,700	Compare with statements; note any amount you cannot explain.
Joint responsibility · account 4421	Individual	Joint account	Confirm whether the joint designation is accurate.
New collection · account 9812	Not present	Harbor Recovery Collections · \$2,140	Review the source page and gather records before drafting anything.
New hard inquiry	None	Northstar Lending · Feb 14, 2026	Decide whether you recognize the inquiry.
New address	100 Peachtree Demo Ave	44 Example Lane	Confirm the address belongs on the file.

Hard inquiries

Inquirer	Date	Purpose	Source
Northstar Lending	February 14, 2026	Credit application	Page 3 · synthetic record

How this powers the demo

The app’s PDF reader extracts the pages locally. Because this fixture is clearly labeled synthetic and includes the Harbor and Northstar markers, Mosaic loads the matching prior/current demo snapshots so the Review deck, follow-up tasks, Gemini overview, and Harbor letter are populated consistently.
